

Dear Sir:

Some members have complained to this department that bills drafted here have had clerical mistakes in them. On comparison with the original typewritten bill it has been found that such mistakes in every instance so far discovered are in the printed bills.

This department may make mistakes, but is not responsible for mistakes in printing the bill.

If members do not find the printed bills to correspond to the bills as drafted by this department, we respectfully ask that they examine the original typewritten copy in this office.

Very truly yours,

Charles McCarthy,

Legislative Drafting Department.
